#### Lancaster Lexington Apartment Corp. -Sublet Application

The following is a list of the items you are required to submit for the board to review your application. Please be sure to provide all the information requested. All of the required documents must be e-mailed to <a href="mailed">carine@kyrousrealtygroup.com</a>. DO NOT DUPLICATE HOUSE RULES. Please retain the copy included in this package for your information.

Upon receipt of a completed package and after verification of all financial data and references, the application will be submitted to the Board of Directors for review.

- 1. Sublet Application (enclosed)
- 2. Executed Sublease Agreement
- 3. Financial Statement
- 4. Last two (2) year's Income tax Returns (include W-2's)
- 5. Signed Credit Report Release
- 6. Letter from current landlord/management agent verifying status of tenancy
- 7. Letter from current employer verifying salary, position length of employment and likelihood of continued employment.
- 8. Two (2) personal letters of recommendation for each person to be named on the Sublease Agreement.
- 9. Copies of Checking & Savings Account Statement for past three (3) months
- 10. Signed Window Guard/Lead Paint Notice

#### Schedule of Fees-Due with Application

- 1. Move-in/out Deposit from applicant: \$500.00 Check, payable to Lancaster Lexington Apartment Corp. In case of damage to the building, the cost of repairs will be deducted from this deposit. This check must be in the form of a certified check or money order. The deposit will be refunded at the end of the lease term.
- 2. Move-Out deposit from Shareholder: \$500.00 Check, payable to Lancaster Lexington Apartment Corp. In case of damage to the building, the cost of repairs will be deducted from this deposit. This check must be in the form of a certified check or money order.
- 3. Application Processing Fee: \$650.00 certified check or money order payable to Kyrous Realty Group, Inc.
- 4. Credit Check Fee: \$150.00 per applicant. This check is non-refundable and made payable to Kyrous Realty Group, Inc. This check must be certified check or money order.

Please note that application packages must contain all required documentation. Items missing will only delay the Managing Agent's review and submission to the Board.

### Lancaster Lexington Apartment Corp. - Letter to Board of Directors

The Board of Directors Lancaster Lexington Apartment Corp. 1885 Lexington Avenue New York, NY 10035	
Re: Lancaster Lexington Apartment Corp. Unit #:	
Dear Board of Directors:	
I (We) have received, read, understand and Lancaster Lexington Apartment Corp.	d agree to abide by the House Rules for
Signature of Applicant	Date
Signature of Applicant	Date

# HOUSE RULES Amended- November "2014"

[Note: All references to "Shareholder" in theses House Rules also apply to family, guests and subtenants of the Shareholder.]

- 1- The public halls and stairways of the building shall not be obstructed or used for any purpose other than an entrance to and exit from apartments in the building.
- 2-Children shall not play in the public halls, courts, stairways, fire escapes or elevators and shall not be permitted on the roof unless accompanied by a responsible adult.
- 3-No public hall above the ground floor of the building shall be decorated or furnished by and Shareholder in any manner without the prior consent of all the Shareholders on that floor. If there is disagreement among Shareholders or a question about the decoration or furnishing of the ground floor, the Board of Directors shall decide.
- 4-No article shall be placed in the halls or on the staircase landings or fire towers, nor shall anything be hung or shaken from the doors, windows, terraces or balconies or placed upon the windowsills of the building.
- 5-No baby carriages, bicycles, scooters or similar vehicles shall be stored in a passenger elevator nor shall any of the above mentioned vehicles be allowed to stand in the public halls, passageways or courts of the building.
- 6-Awnings or window air conditioning units, washing machines, dishwashers or dryers may not be used in or about the building except as shall have been expressly approved by the Corporation No objects shall be projected out of any window of the building without the express approval of the Corporation.
- 7-No sign, notice, advertisement or illumination shall be, written or hung from window or other part of the building, except as has been approved in writing by the Corporation or its managing agent.
- 8-No radio or television antenna shall be attached to or hung from the exterior or the building without the prior written approval from the Corporation.
- 9-No shareholder shall make or permit any disturbing noises in the building or do or permit anything to be done therein which will interfere with the rights, comfort or convenience of other shareholders. No shareholders shall play or allow to be played musical instruments or permit to be played a phonograph or a radio or television in a loud manner between the hours of eleven (11:00) o'clock p.m. and eight (8:00) o'clock a.m. the next morning so as to disturb or annoy other occupants of the building. No construction or repair work or other installation involving noise shall be conducted in any apartment except on weekdays (not including legal holidays) and only between the hours of 8:30 a.m. and 5:00 p.m.
- 10-If there is a garage in the building, the shareholder will abide by all arrangements made by the Corporation with the garage operator with regard to the garage and the driveways thereto.
- 11-Garbage and refuse from the apartments shall be disposed of only at such times and in such manner as the superintendent or the managing agent of the building may direct.

- 12-Toilets and other plumbing fixtures in the building shall not be used for any purposes other than those for which they are constructed, nor shall any sweepings, rubbish, rags or any other articles be thrown in toilets. The cost of repairing any damage resulting from misuse of any toilets or other plumbing fixtures shall be paid for by the Shareholder responsible for the damage.
- 13-No shareholder shall send any employee of the Corporation out of the building on any private business of a shareholder.
- 14-In no event shall any bird, reptile or animal be permitted in any of the public portions of the building, unless carried or on a leash. No pigeons or other birds or animals shall be fed from the window sills or other public portions of the building or on the sidewalk or street adjacent to the building.
- 15-Dogs, cats or other common household pets, not to exceed two (2) per apartment, may be kept in apartments, subject to the rules and restrictions adopted by the board of directors, and subject further to removal upon a vote of Shareholders owning not less than sixty-six and 2/3 percent (66 2/3%) of the shares of the Apartment Corporation, for reasons such as aggression against people or other animals, quantity limitations, noise, odor, hygiene or the Shareholders repeated breach of the pet rules promulgated by the Board of Director. In no event will any dog be permitted in any portion of the common areas of the Building unless carried or on a leash.
- 16-No vehicle belonging to a Shareholder or to a member of the family or guest, roommate, subtenant or employee of a Shareholder shall be parked in such a manner as to impede or prevent ready access to any entrance of the building by another vehicle.
- 17-The Shareholder shall use the available laundry facilities, if any, only upon such days and during such hours as the Corporation may designate.
- 18-The Corporation shall have the right form time to time to curtail or relocate any space devoted to storage or laundry purposes.
- 19-Complaints regarding the service of the building shall be made in writing to the Corporation or its managing agent.
- 20-The Corporation may revoke at any time any consent or approval which it has given under these House Rules.
- 21-Shareholder shall observe all rules about the security of the building and its residents which the Board of Directors approves and issues in writing to the Shareholders.
- 22-Tenant-Shareholders are required to carry homeowners insurance.

# FIRE SAFETY PLAN PART II—FIRE EMERGENCY INFORMATION

THIS FIRE SAFETY PLAN IS INTENDED TO HELP YOU AND THE MEMBERS OF YOUR HOUSEHOLD PROTECT YOURSELVES IN THE EVENT OF FIRE. THIS FIRE SAFETY PLAN CONTAINS:

- Basic fire prevention and fire preparedness measures that will reduce the risk of fire and maximize your safety in the event of a fire.
- Basic information about your building, including the type of construction, the different ways of exiting the building, and the types of fire safety systems it may have.
- Emergency fire safety and evacuation instructions in the event of fire in your building.

PLEASE TAKE THE TIME TO READ THIS FIRE SAFETY PLAN AND TO DISCUSS IT WITH THE MEMBERS OF YOUR HOUSEHOLD, FIRE PREVENTION, PREPAREDNESS, AND AWARENESS CAN SAVE YOUR LIFE!

# IN THE EVENT OF A FIRE, CALL 911

OR THE FIRE DEPARTMENT DISPATCHER, AT
Manhattan (212) 999-2222
Bronx (212) 999-3333
Brooklyn (718) 999-4444
Queens (718) 999-5555
Staten Island (718) 999-6666
OR TRANSMIT AN ALARM FROM
THE NEAREST FIRE ALARM BOX

#### BASIC FIRE PREVENTION AND FIRE PREPAREDNESS MEASURES

These are fire safety tips that everybody should follow:

- 1. Every apartment should be equipped with at least one smoke detector. Check them periodically to make sure they work. Most smoke detectors can be tested by pressing the test button. Replace the batteries in the spring and fall when you move your clocks forward or back an hour, and whenever a smoke detector chirps to signal that its battery is low. The smoke detector should be replaced on a regular basis in accordance with the manufacturer's recommendation, but at least once every ten years.
- 2. Carelessly handled or discarded cigarettes are the leading cause of fire deaths. Never smoke in bed or when you are drowsy, and be especially careful when smoking on a sofa. Be sure that you completely extinguish every cigarette in an ashtray that is deep and won't tip over. Never leave a lit or smoldering cigarette on furniture.
- 3. Matches and lighters can be deadly in the hands of children. Store them out of reach of children and teach them about the danger of fire.
- 4.Do not leave cooking unattended. Keep stove tops clean and free of items that can catch on fire. Before you go to bed, check your kitchen to ensure that your oven is off and any coffeepot or teapot is unplugged.
- 5. Never overload electrical outlets. Replace any electrical cord that is cracked or frayed. Never run extension cords under rugs. Use only power strips with circuit-breakers.
- 6.Keep all doorways and windows leading to fire escapes free of obstructions, and report to the owner any obstructions or accumulations of rubbish in the hallways, stairwells, fire escapes or other means of egress.
- 7.Install window gates only if it is absolutely necessary for security reasons. Install only approved window gates. Do not install window gates with key locks. A delay in finding or using the key could cost lives. Maintain the window gate's

opening device so it operates smoothly. Familiarize yourself and the members of your household with the operation of the window gate.

- 8. Familiarize yourself and members of your household with the location of all stairwells, fire escapes and other means of egress.
- 9. With the members of your household, prepare an emergency escape route to use in the event of a fire in the building.

  Choose a meeting place a safe distance from your building where you should all meet in case you get separated during a fire.
- 10. Exercise care in the use and placement of fresh cut decorative greens, such as Christmas trees and holiday wreaths. If possible, keep them planted or in water. Do not place them in public hallways or where they might block egress from your apartment if they catch on fire. Keep them away from any flame, including fireplaces. Do not keep for extended period of time; as they dry, decorative greens become easily combustible.

#### **BUILDING INFORMATION**

#### **Building Construction**

In a fire emergency, the decision to leave or to stay in your apartment will depend in part on the type of building you are in.

Residential buildings built before 1968 are generally classified either as "fireproof" or "non-fireproof." Residential buildings built in or after 1968 are generally classified either as "combustible" or "non-combustible." The type of building construction generally depends on the size and height of the building.

A "non-combustible" or "fireproof" building is a building whose structural components (the supporting elements of the building, such as steel or reinforced concrete beams and floors) are constructed of materials that do not burn or are resistant to fire and therefore will not contribute to the spread of the fire. In such buildings, fires are more likely to be contained in the apartment or space in which they start and less likely to spread inside the building walls to other apartments and floors. THIS DOES NOT MEAN THAT THE BUILDING IS IMMUNE TO FIRE. While the structural components of the building may not catch fire, all of the contents of the building furniture, carpeting, wood floors, decorations and personal belongings) may catch on fire and generate flame, heat and large amounts of smoke, which can travel throughout the building, especially if apartment or stairwell doors are left open.

A "combustible" or "non-fireproof" building has structural components (such as wood) that will burn if exposed to fire and can contribute to the spread of the fire. In such buildings, the fire can spread inside the building walls to other apartments and floors, in addition to the flame, heat and smoke that can be generated by the burning of the contents of the building. Be sure to check Part I (Building Information Section) of this fire safety plan to see what type of building you are in.

#### Means of Egress

All residential buildings have at least one means of egress (way of exiting the building), and most have at least two. There are several different types of egress:

Interior Stairs: All buildings have stairs leading to the street level. These stairs may be enclosed or unenclosed. Unenclosed stairwells (stairs that are not separated from the hallways by walls and doors) do not prevent the spread of flame, heat and smoke. Since flame, heat and smoke generally rise, unenclosed stairwells may not ensure safe egress in the event of a fire on a lower floor. Enclosed stairs are more likely to permit safe egress from the building, if the doors are kept closed. It is important to get familiar with the means of egress available in your building.

Exterior Stairs: Some buildings provide access to the apartments by means of stairs and corridors that are outdoors. The fact that they are outdoors and do not trap heat and smoke enhance their safety in the event of a fire, provided that they are not obstructed.

Fire Tower Stairs: These are generally enclosed stairwells in a "tower" separated from the building by air shafts open to the outside. The open air shafts allow heat and smoke to escape from the building.

Fire Escapes: Many older buildings are equipped with a fire escape on the outside of the building, which is accessed through a window or balcony. Fire escapes are considered a "secondary" or alternative means of egress, and are to be used if the primary means of egress (stairwells) cannot be safely used to exit the building because they are obstructed by flame, heat or smoke.

Exits: Most buildings have more than one exit. In addition to the main entrance to the building, there may be separate side exits, rear exits, basement exits, roof exits and exits to the street from stairwells. Some of these exits may have alarms. Not all of these exits may lead to the street. Roof exits may or may not allow access to adjoining buildings.

Be sure to review Part I (Building Information Section) of this fire safety plan and familiarize yourself with the different means of egress from your building.

#### Fire Sprinkler Systems

A fire sprinkler system is a system of pipes and sprinkler heads that when triggered by the heat of a fire automatically discharges water that extinguishes the fire. The sprinkler system will continue to discharge water until it is turned off. When a sprinkler system activates, an alarm is sounded.

Sprinkler systems are very effective at preventing fire from spreading beyond the room in which it starts. However, the fire may still generate smoke, which can travel throughout the building.

Residential buildings are generally not required to have fire sprinkler systems. Some residential buildings are equipped with sprinkler systems, but only in compactor chutes and rooms or boiler rooms. All apartment buildings constructed or substantially renovated after March 1999 will be required by law to be equipped with fire sprinkler systems throughout the building.

Be sure to review Part I (Building Information Section) of this fire safety plan to learn whether your building is equipped with fire sprinkler systems.

#### Interior Fire Alarm Systems

Although generally not required, some residential buildings are equipped with interior fire alarm systems that are designed to warn building occupants of a fire in the building. Interior fire alarm systems generally consist of a panel located in a lobby or basement, with manual pull stations located near the main entrance and by each stairwell door. Interior fire alarm systems are usually manually-activated (must be pulled by hand) and do not automatically transmit a signal to the Fire Department, so a telephone call must still be made to 911 or the Fire Department dispatcher. Do not assume that the Fire Department has been notified because you hear a fire alarm or smoke detector sounding in the building.

Be sure to review Part I (Building Information Section) of this fire safety plan to learn whether your building is equipped with an interior fire alarm system and whether the alarm is transmitted to the Fire Department, and familiarize yourself with the location of the manual pull stations and how to activate them in the event of a fire.

#### Public Address Systems

Although generally not required, some residential buildings are equipped with public address systems that enable voice communications from a central location, usually in the building lobby. Public address systems are different from building intercoms, and usually consist of loudspeakers in building hallways and/or stairwells.

Be sure to review Part I (Building Information Section) of this fire safety plan to learn whether your building is equipped with a public address system.

#### EMERGENCY FIRE SAFETY AND EVACUATION INSTRUCTIONS

IN THE EVENT OF A FIRE, FOLLOW THE DIRECTIONS OF FIRE DEPARTMENT PERSONNEL. HOWEVER, THERE MAY BE EMERGENCY SITUATIONS IN WHICH YOU MAY BE REQUIRED TO DECIDE ON A COURSE OF ACTION TO PROTECT YOURSELF AND THE OTHER MEMBERS OF YOUR HOUSEHOLD.

THIS FIRE SAFETY PLAN IS INTENDED TO ASSIST YOU IN SELECTING THE SAFEST COURSE OF ACTION IN SUCH AN EMERGENCY. PLEASE NOTE THAT NO FIRE SAFETY PLAN CAN ACCOUNT FOR ALL OF THE POSSIBLE FACTORS AND CHANGING CONDITIONS; YOU WILL HAVE TO DECIDE FOR YOURSELF WHAT IS THE SAFEST COURSE OF ACTION UNDER THE CIRCUMSTANCES.

#### General Emergency Fire Safety Instructions

- 1. Stay calm. Do not panic. Notify the Fire Department as soon as possible. Firefighters will be on the scene of a fire within minutes of receiving an alarm.
- 2. Because flame, heat and smoke rise, generally a fire on a floor below your apartment presents a greater threat to your safety than a fire on a floor above your apartment.
- 3. Do not overestimate your ability to put out a fire. Most fires cannot be easily or safely extinguished. Do not attempt to put the fire out once it begins to quickly spread. If you attempt to put a fire out, make sure you have a clear path of retreat from the room.
- 4. If you decide to exit the building during a fire, close all doors as you exit to confine the fire. Never use the elevator. It could stop between floors or take you to where the fire is.

- 5. Heat, smoke and gases emitted by burning materials can quickly choke you. If you are caught in a heavy smoke condition, get down on the floor and crawl. Take short breaths, breathing through your nose.
- 6. If your clothes catch fire, don't run. Stop where you are, drop to the ground, cover your face with your hands to protect your face and lungs and roll over to smother the flames.

#### Evacuation Instructions If The Fire Is In Your Apartment (All Types of Building Construction)

- 1. Close the door to the room where the fire is, and leave the apartment.
- 2. Make sure EVERYONE leaves the apartment with you.
- 3. Take your keys.
- 4. Close, but do not lock, the apartment door.
- 5. Alert people on your floor by knocking on their doors on your way to the exit.
- 6. Use the nearest stairwell to exit the building.
- 7. DO NOT USE THE ELEVATOR.
- 8. Call 911 once you reach a safe location. Do not assume the fire has been reported unless firefighters are on the scene.
- 9. Meet the members of your household at a predetermined location outside the building. Notify responding firefighters if anyone is unaccounted for.

#### Evacuation Instructions If The Fire Is Not In Your Apartment

#### "NON-COMBUSTIBLE" OR "FIREPROOF" BUILDINGS:

- 1. Stay inside your apartment and listen for instructions from firefighters unless conditions become dangerous.
- 2. If you must exit your apartment, first feel the apartment door and doorknob for heat. If they are not hot, open the door slightly and check the hallway for smoke, heat or fire.
- 3. If you can safely exit your apartment, follow the instructions above for a fire in your apartment.
- 4. If you cannot safely exit your apartment or building, call 911 and tell them your address, floor, apartment number and the number of people in your apartment.
- 5. Seal the doors to your apartment with wet towels or sheets, and seal air ducts or other openings where smoke may enter.
- 6. Open windows a few inches at top and bottom unless flames and smoke are coming from below. Do not break any windows.
- 7. If conditions in the apartment appear life-threatening, open a window and wave a towel or sheet to attract the attention of firefighters.
- 8. If smoke conditions worsen before help arrives, get down on the floor and take short breaths through your nose. If possible, retreat to a balcony or terrace away from the source of the smoke, heat or fire.

#### "COMBUSTIBLE" OR "NON-FIREPROOF" BUILDING

- 1. Feel your apartment door and doorknob for heat. If they are not hot, open the door slightly and check the hallway for smoke, heat or fire.
- 2. Exit your apartment and building if you can safely do so, following the instructions above for a fire in your apartment.
- 3.If the hallway or stairwell is not safe because of smoke, heat or fire and you have access to a fire escape, use it to exit the building. Proceed cautiously on the fire escape and always carry or hold onto small children.
- 4. If you cannot use the stairs or fire escape, call 911 and tell them your address, floor, apartment number and the number of people in your apartment.
  - A. Seal the doors to your apartment with wet towels or sheets, and seal air ducts or other openings where smoke may enter.
  - B. Open windows a few inches at top and bottom unless flames and smoke are coming from below. Do not break any windows.
  - C. If conditions in the apartment appear life-threatening, open a window and wave a towel or sheet to attract the attention of firefighters.
  - D. If smoke conditions worsen before help arrives, get down on the floor and take short breaths through your nose. If possible, retreat to a balcony or terrace away from the source of the smoke, heat or fire.

# ANNUAL NOTICE PROTECT YOUR CHILD FROM LEAD POISONING AND WINDOW FALLS

New York City law requires that tenants living in buildings with 3 or more apartments complete this form and return it to their landlord before February 15, each year. If you do not return this form, your landlord is required to visit your apartment to determine if children live in your apartment.

#### **Peeling Lead Paint**

By law, your landlord is required to inspect your apartment for peeling paint and other lead paint hazards at least once a year if a child under 6 years of age (5 years or younger) lives with you.

- You must notify your landlord in writing if a child under 6 comes to live with you during the year.
- If a child under 6 lives with you, your landlord must inspect your apartment and provide you with the results of these paint inspections.
- Always report peeling paint to your landlord. Call 311 if your landlord does not respond.
- Your landlord must use safe work practices to repair all peeling paint and other lead paint hazards.

These requirements apply to buildings with 3 or more apartments built before 1960. They also apply to buildings to buildings built between 1960 and 1978 if the landlord knows that lead paint is present.

#### **Window Guards**

By law, your landlord is required to install window guards in all your windows if a child under 11 years of age (10 years or younger) lives with you, OR if you request them (even if no children live with you).

- ONLY windows that open to fire escapes, and one window in each first floor apartment when there is a fire escape on the outside of the building, are legally exempt from this requirement.
- It is against the law for you to interfere with installation, or remove window guards where they are required. Air conditioners in windows must be permanently installed.
- Window guards must be installed so there is no space greater than 4<sup>1</sup>/<sub>2</sub> inches above or below the guard, on the side of the guard, or between the bars.

These requirements apply to all buildings with 3 or more apartments, regardless of when they were built.

#### Fill Out and detach the bottom part of this form.
